

# FIREFIGHTER STAIRCLIMB CHALLENGE

April 26, 2016 FOR IMMEDIATE RELEASE

## NEWS RELEASE

### **Calgary Hosts the World's Highest Elevation Firefighter Stairclimb In support of firefighters and citizens impacted by Cancer**

**Calgary, AB** – On May 7, 500 dedicated firefighters from across North America will suit up in 45 pounds of duty gear and climb 1,204 steps (775 vertical feet) to the top of Calgary's Bow building, to raise awareness and funds for firefighters and citizens who are living with cancer.

This third annual event, hosted by the Calgary Firefighters Benevolent Society and presented by Encana Corporation in support of Wellspring Calgary, shines a spotlight on the risks firefighters take on daily to save lives in an occupation that exposes them to many cancer-causing situations. More broadly, the event brings awareness to anyone impacted by cancer.

#### **This year's challenge will feature two NEW thrilling components:**

- **Challenge the Chief:** The call went out to anyone who thinks they have what it takes to beat Chief Steve Dongworth in the climb. Brave respondents – including Deputy Police Chief Ray Robitaille - pledged their required fundraising goal of \$10,000 and will take to the steps in a race against the chief prior to the main race. Award-winning chef Michael Noble will reward this group by preparing a special celebratory dinner at the firehall exclusively for the Chief and the challengers.
- **President's Cup:** Mike Carter, President, International Association of Fire Fighters (IAFF) has issued a challenge to other IAFF presidents to pledge \$1,000 and join the race. So far he has just one rival, but registration is ongoing! The President's Cup will occur simultaneously with the *Challenge the Chief* race.
